Thames cleat straight in bronze

Product attributes:

Size: 150 mm, 200 mm

Product codes:

Reference: 1086/BR/XX
EAN13: -
UPC: -

Product features:

Manufacture: England

Product short description:

This **straight-bar handrail-style cleat in solid bronze** features a straight horizontal bar supported by two uprights on a rectangular base plate. It allows a mooring line or control line to be belayed while also providing a secure handhold on board.

Mounting does not rely solely on the four fixing screws: two locating lugs beneath the base plate fit into the mounting surface to improve lateral stability. Installation therefore requires recesses in the deck to accommodate these lugs, along with fixings suited to the expected loads.

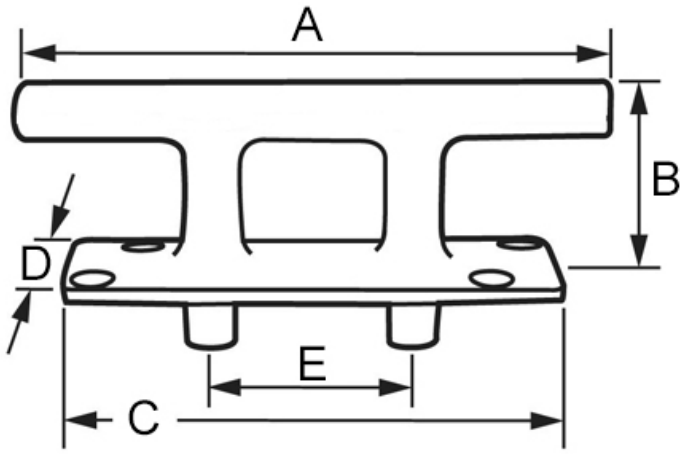

Available in **150 and 200 mm lengths**, this cleat is ideal for classic boats requiring a straight-bar fitting, particularly when replacing original deck hardware.

1086/BR/200	200 mm	69 mm	175 x 56 mm	73 mm	8 mm

Frequently asked questions

- 1. Which screws should I order to secure this cleat?

    - This cleat has 4 fixing holes.

      To secure this cleat, you can use either bronze wood screws or bronze machine screws with matching nuts and washers.

      For outdoor applications, we recommend using bronze fixings or, where appropriate, stainless steel fixings rather than mixing bronze and brass fittings on wood.

- 2. Is this straight cleat available in other finishes?

    - This cleat can be supplied with a chrome-plated bronze finish upon request.

- 3. Can this cleat be made to measure?
    - This cleat cannot be made to measure.

Good to know

This handrail-style cleat is handcrafted using century-old moulds, a traditional manufacturing process that may result in slight variations in the bronze. These characteristics give each piece its own unique character and authenticity.

Solid bronze offers excellent resistance to weathering and marine conditions, preserving the quality and integrity of the material over time.
