Bronze bar cleat with bolt throughs

Product attributes:

Size: 165 mm, 240 mm

Product codes:

Reference: 1088/BR/XX
EAN13: -
UPC: -

Product features:

Composition: Bronze
Manufacture: England

Product short description:

This solid bronze cleat fitting with threaded studs is designed to hold an oval-section wooden bar, creating a handrail-style cleat. It can secure mooring lines or running rigging and also serve as a handhold on board, provided the mounting is suitable for the loads involved.

The wooden bar passes through two upright supports, leaving room to belay the line. Both supports sit on a common base plate secured by two through-bolted threaded studs. Access beneath the mounting surface is required to tighten the nuts and washers.

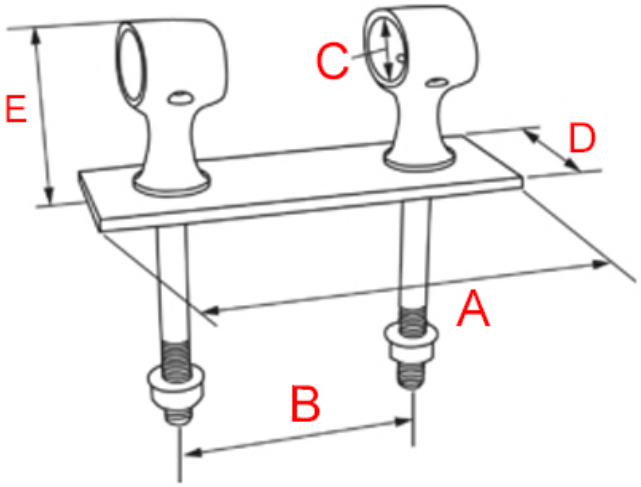

Available in two sizes to suit different bar sections, it is ideal for fitting out or restoring classic sailing yachts and traditional boats, in keeping with period deck hardware.

Wooden bar not included.

Product description:

Specifications

- Handrail-style cleat in solid bronze
- British-made deck hardware
- For classic or traditional boats
- Threaded studs, nuts and washers included

Reference	Base plate length (A)	Hole centres (B)	Bar section (c)	Width (D)	Height (E)	Threaded stud dimensions

1088/BR/240	242 mm	112 mm	47 x 34 mm	63 mm	87 mm	16 x 150 mm

Frequently asked questions

- 1. How is this cleat secured?
    - This cleat is secured using the integrated bronze threaded studs, supplied with matching nuts and washers.

      For outdoor applications, we recommend using bronze fixings rather than mixing bronze and brass fittings on wood.
- 2. Is this cleat available in other sizes?
    - This cleat is not available in sizes other than those listed above.
- 3. Can this cleat be made to measure?
    - This handrail-style cleat cannot be made to measure.

Good to know

This cleat with base plate and threaded studs is handcrafted using century-old moulds, a traditional manufacturing process that may result in slight variations in the bronze. These characteristics give each piece its own unique character and authenticity.

Solid bronze offers excellent resistance to weathering and marine conditions, preserving the quality and integrity of the material over time.
