# Torpedo cleat in bronze

**Product attributes:**

Size: 90 mm, 115 mm

**Product codes:**

Reference: 1098/BR/XX
EAN13: -
UPC: -

**Product features:**

Composition: Bronze
Manufacture: England

**Product short description:**

This **solid bronze bow torpedo cleat** features an elongated, rounded head supported by a central stem. Designed for mooring, particularly at the bow, it allows a mooring eye to be slipped over the head or a line to be belayed around it, without the two horns of a conventional cleat.

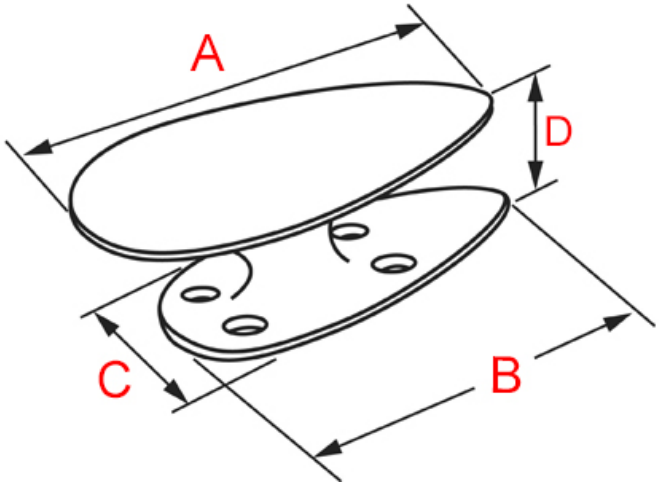

Its tapered profile makes it easier to take turns of rope while limiting protruding parts. The oval base has four fixing holes around the stem. The fixings and mounting surface must be suitable for the expected mooring loads.

Available in two sizes, this cleat is particularly suited to **classic and traditional boats** where a torpedo design is preferred to a conventional two-horn cleat.

**Product description:**

## Specifications

- Torpedo cleat in solid bronze
- British-made deck hardware
- For classic or traditional boats
- Fixing screws not included

| Reference | Length (A) | Base dimensions (BxC) | Height (D) | Screw diameter |

| 1098/BR/090 | 90 mm | 71 x 30 mm | 36 mm | 4 mm |
| 1098/BR/115 | 120 mm | 110 x 35 mm | 50 mm | 4.5 mm |

## Frequently asked questions

- 1. Which screws should I order to secure this cleat?

    - To secure this cleat, you can use either bronze wood screws or bronze machine screws with matching nuts and washers.

      For outdoor and marine applications, we recommend using bronze fixings or, where appropriate, stainless steel fixings.

- 2. Is this torpedo cleat available in other finishes?

    - This solid bronze torpedo cleat is not available in other finishes.

- 3. Can this cleat be made to measure?

    - This cleat is not available in sizes other than those listed above and cannot be made to measure.

## Good to know

This torpedo cleat is handcrafted using century-old moulds, a traditional manufacturing process that may result in slight variations in the bronze. These characteristics give each piece its own unique character and authenticity.

Solid bronze offers excellent resistance to weathering and marine conditions, preserving the quality and integrity of the material over time.
