Bronze closed fairlead

Product attributes:

Size: 100 mm, 150 mm, 200 mm

Product codes:

Reference: 1102/BR/XX
EAN13: -
UPC: -

Product features:

Manufacture: England

Product short description:

This **solid bronze closed fairlead** guides a mooring line or anchor chain towards its securing point, preventing direct contact with the deck edges. Unlike an open fairlead, its enclosed opening keeps the line in place when the lead angle changes.

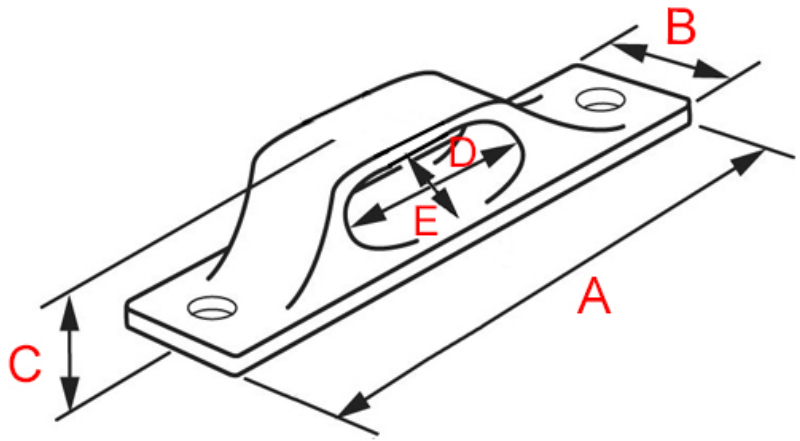

Its oblong opening and rounded surfaces guide the line and help reduce chafing against fixed parts of the boat. Two side mounting flanges allow it to be secured to the deck, with fixings and a supporting structure suited to the loads involved.

Available in three sizes, it is suitable for fitting out or restoring **classic boats**. The choice depends on the diameter of the mooring line or chain, its lead angle and the position of the securing point.

Frequently asked questions

- 1. Which screws should I order to secure this fairlead?

    - To secure this closed fairlead, you can use either bronze wood screws or bronze machine screws with matching nuts and washers.

      For outdoor and marine applications, we recommend using bronze fixings or, where appropriate, stainless steel fixings. The type of fixing should be chosen according to the mounting surface.

- 2. Is this closed fairlead available in other finishes?

    - This solid bronze closed fairlead can be supplied with a chrome-plated finish upon request, with a lead time of approximately 3 weeks.

- 3. Can this fairlead be made to measure?

- This closed fairlead cannot be made to measure.

Good to know

This closed fairlead is handcrafted using century-old moulds, a traditional manufacturing process that may result in slight variations in the bronze. These characteristics give each piece its own unique character and authenticity.

Solid bronze offers excellent resistance to weathering and marine conditions, helping preserve the quality and integrity of the material over time.
