Black marine pine pitch for deck culking

Product attributes:

Weight: 12,5 kg, 25 kg

Product codes:

Reference: P5025/XX
EAN13: -
UPC: -

Product features:

Product short description:

Solid pine pitch, traditionnaly used for seams and deck culking. This is a mixture of oxidised bitumen and asphalt to guarantee waterproofness.

Sold in a can of 12,5kg or 25kg.

Instruction manual :

You first have to break the pitch in several little pieces and warm them up to soften it (not more than 200°). The area to be treated must be clean and degreased to guarantee the best adhesiveness.
