EAN13: -

UPC: -

Product features:

Packing: 0.5 L or 1 L

Product short description:

Epifanes WOODFINISH shiny mono-component varnish high brilliance and clear hue. For an excellent adhesion finish on new teack or other exotic wood types.

No need to sand if drying is less than 72 hours between layers.

Application of 8 to 10 layers recommended. Recoverable after 24 hours at 18°C (65°F).

Can be used on teack, Iroko or as alternative for the regular maintenance of greasy wood.

Do not use on Bankirai.

External and internal application above the waterline in fresh or saltwater. If this varnish is applied on dry wood, micro porosity will not be that efficient.

Diluant : [Epifanes brush diluant](#)

Sold by 0,5l ou 1l
