Product short description:

Polyurethan mono-component varnish. Ready to use, shiny finish. Can be used on plywood as well as on laminated or formed wood.

Complete system for renovating decks, spars and wooden pannels : very resistant against UV and wear, elastic, recovers cracks while wood's breathing. Lasts up 7 to 10 years.

Sold by 375ml, 750ml or 3l.

Application :

1 layer of yellow or red primer (0,2l/m²), 5 layers of COELAN shiny varnish (0,2l/m²), means 1l/m² for 5 layers, *in option* 1 layer of COELAN matt varnish (0,2l/m²).

If exposed to very hot temperatures or for vertical surfaces, you can dilute it.
