
Classic pillar cleat in brass

Product attributes:

Product codes:

Reference: 34/LA/100

EAN13: -

UPC: -

Product features:

Composition: Brass

Height: 30 mm (B)

Width: 30 mm (C)

Length: 100 mm (A)

diameter of screws: 5 mm

Manufacture: Italy

Product short description:

This **classic polished brass cleat** is designed for **securing ropes, halyards, sheets, and small mooring lines** on **traditional, classic, and vintage boats**. Measuring **100 mm in length**, it can be installed on the **deck**, at the **base of the mast**, or directly on the **mast**, providing **reliable rope management and tensioning**.

Crafted from **solid brass**, this mooring cleat ensures **excellent mechanical strength** and long-lasting **resistance to marine conditions**. The **polished finish** enhances the authentic look of your boat while protecting against corrosion.

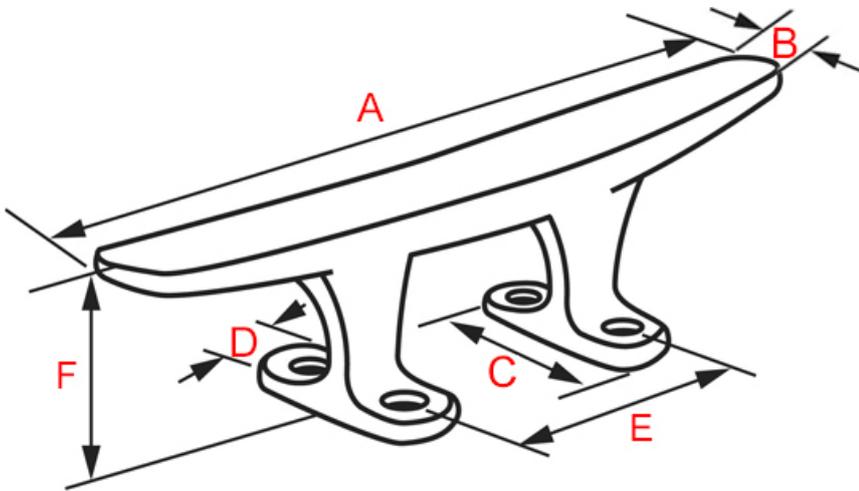

The **classic two-horn design** allows for **easy and secure rope handling**, making it perfect for **wooden sailboats, vintage yachts, traditional rigging, and classic sailing vessels**.

FREQUENTLY ASKED QUESTIONS

- 1. What screws should I order to attach this cleat?

- This cleat is equipped with 4 screw holes.

To attach this cleat, you can order either bronze wood screws or bronze machine screws with matching nut and washer.

Be careful, bronze + brass + wood do not mix well outdoors. We therefore advise you to stick with bronze screws, or stainless steel if necessary.

- 2. Is this cleat available in other finishes?

- This classic bronze cleat is also available in brass chrome plated on our website.

-
- 3. Does this cleat exist in other dimensions?

- This cleat does not exist in other dimensions and cannot be made to measure.

to know

This cleat is shaped manually using century-old molds, which may cause variations in the brass. This gives the piece a uniqueness and authenticity.

Solid brass offers unwavering resistance to all climatic conditions, thus preserving the quality and integrity of the material.
