Frequently asked questions

- 1. Are the fixings included with this cleat?
 - Yes, this torpedo cleat is secured using two threaded studs, supplied with matching nuts and washers.

The concealed through-bolt fixing system provides a secure installation without visible screw heads on the base.

- 2. Is this torpedo cleat available in other finishes?
 - This torpedo cleat is also available in chrome-plated brass on our website.
- 3. Can this cleat be made to measure?
 - This torpedo cleat cannot be made to measure.

Good to know

This cleat is carefully handcrafted, which may result in slight variations in the brass. These characteristics give each piece its own unique character and authenticity.

Solid brass offers excellent durability and resistance to marine conditions. However, brass naturally changes in appearance over time. As this cleat is made from **unlacquered polished brass**, its original bright finish will gradually develop a patina.

Exposure to air and moisture causes the brass to oxidise naturally, creating variations in colour and tone. Regular polishing will restore its original shine. Discover our range of [cleaning and maintenance products](#).
