# long-eyed stainless steel needle for seamanship

## Product attributes:

## Product codes:

Reference: 3057/V/F20

EAN13: -

UPC: -

## Product features:

Length: 26 mm

rope diameter: 4 to 6 mm

## Product short description:

Long-eye seamanship needle, with fixed plastic handle, for splicing 4 to 6mm rope. Length 26 cm.

The long-eyed needle is used in reverse to hollow needles. You have to slip the needle through the rope and go up to the end of the rope to then wedge it between the two rods and finally, pull the needle back.

Sold individually.
