Folding seat in oiled wood and wronze

Product attributes:

Product codes:

Reference: 1730/LA/568
EAN13: -
UPC: -

Product features:

Composition: Brass
Diameter: 245 mm
Height: 320 mm
Projection: 260 mm (open)
Manufacture: Germany

Product short description:

This foldable chart table seat combines elegance and functionality, specifically designed for classic or traditional boats. Made from high-quality solid wood, it offers unmatched durability while bringing a natural and timeless touch to your vessel’s interior.

The bronze finishes, both sturdy and aesthetic, enhance the furniture by adding a subtle contrast between wood and metal, while ensuring resistance to marine conditions.

Its clever design allows for easy folding to optimize space when the seat is not in use, making this model both practical and decorative.

Perfectly suited to refined nautical environments, this seat represents a perfect fusion of comfort, style, and tradition.
