Cleaning: Dry in 15/20mm surface (at 20°)

Use precaution: Apply 1/2 layers, recoverable after 6 to 32 hours maximum between each layer.

Hue: Mahogany

Product short description:

Bi-component toning paste for wooden ships or other new wood structures.

You can apply it on a mono-component or an already existing bi-component varnish.

This tone of acajou, which is the typical RIVA wood, revives and brings out all the natural beauty of wood.

You can handle the intensity of the acajou tone by adjusting dilution (test before application recommended).
