To Sharpen the blade hold at 20° to and move lengthways on the oilstone.
For best Care and Operational use please rinse and oil the moving parts.
shackle opening
Lockspike operation
(Currey Lockspike Knives only)
On receipt you should find the shackle over the Blade
With the shackle in this position spike is free to open or close
The shackle here now securely locks the spike- replace the shackle over the blade to close the spike
This is the famous "Currey Lockspike Bosun". Just one of Captain Currey's tested marine products.
