Length: 64 mm (L1)

Plate dimensions: 135 x 68 mm (L x B)

Manufacture: England

Product short description:

Solid bronze cast fitting for traditional galleys frames.

This mast-fitting is inclined of about 30° and after having built the cross with both wooden parts, you can place the mast while your ship is anchored.

Sold individually, but for an optimal use, you need 2 of them.
