3-strand mooring rope in navy blue polypropylene

Product attributes:

Packaging: Au ML, By 100 m
Diameter: 12 mm, 16 mm, 20 mm

Product codes:

Reference: 2529/PP/XX
EAN13: -
UPC: -

Product features:

Product short description:

This navy blue polypropylene rope, braided in 3 strands, combines strength, flexibility, and buoyancy.

Made for mooring lines, it provides excellent knot holding and effectively resists UV rays, moisture, and abrasion.

Its soft texture makes it easy to handle and pleasant to work with, while ensuring great durability in marine conditions. Available in various diameters and lengths, it adapts to all types of mooring needs.
