UPC: -

Product features:

Capacity: 650 ml

Product short description:

The 650 ml Norwegian tar spray is the ideal solution for touch-ups and the treatment of small surfaces.

Thanks to its aerosol format, it allows for precise application, even in hard-to-reach areas.

Its optimal adhesion effectively protects wood, metal, and ropes from moisture, fungi, and insects.

Easy to use, it dries quickly and provides long-lasting protection against external aggressions. Whether restoring a damaged surface or strengthening a material's resistance, this plant-based tar is an essential ally for the maintenance and preservation of your equipment.
